

Reduce the Risk

"No greater challenge exists today than creating safe schools or restoring schools to tranquil and safe places of learning. The challenge requires a major strategic commitment and involved placing school safety at the top of the educational agenda. Without safe schools, teachers cannot teach and students cannot learn. A safe school is foundational to the success of the academic mission."

~ Ron Stephens,
National School Safety Center

"I believe the SAM Training® program should be in every school in the nation. It is easy to put into place because you have provided excellent materials and training that provide a ready-to-use tool for combating school violence on whatever scale such violence might occur."

~ David Keller Trevaskis, Esq.,
Law Education and Peace for Kids, Inc.

Empowering faculty and staff with the tools to make themselves and those around them safer!

Every one of our course specific programs offers science-based and time-tested training. Delivering practical and realistic information and techniques that can be put into use/applied in everyday situations.
